

Health Guarantee & Sales Contract

SELLER REQUIREMENTS

- a. If, for whatever reason buyer cannot or does not wish to maintain custody of this puppy at any time during this puppy's life ownership shall revert back to the breeder, including any and all paperwork.
- b. At no time may this puppy be resold or given to a third party without notification given first to the seller.
- c. Further, Buyer agrees that if he or she should relinquish custody of this puppy it shall be his or her responsibility to get the dog back to seller, or to pay expenses for breeder to recover the dog including but not limited to travel.
- d. Buyer certifies that this purchase is not made by the buyer as an agent for any other person or entity and further agrees that this dog shall not be sold to any agent, pet shop, mass commercial kennel, puppy mill, farm breeding facility or research breeding facility.
- e. Buyer agrees to maintain this puppy in lifelong good condition with annual veterinary check-ups, timely vaccinations, proper diet, and hygienic conditions.

GUARANTEE: Buyer agrees there is no other health guarantee than as stated herein:

At the option of the buyer and at the buyer's expense, the dog can be taken to the buyer's own veterinarian for a health exam within 72 hours (3 working days) of their purchase of the dog. If veterinarian deems puppy to have a life threatening health issue, in writing, full purchase price will be refunded upon a secondary veterinarian, of the Seller's choice, coming to the same conclusion. All documents and receipt of veterinarians written statement will be at the buyer's expense. The puppy will be guaranteed for one year against any incurable and debilitating genetic disorder requiring the dog to be euthanized. Should the dog die due to a genetic disorder within one year from the date of purchase the seller will replace the dog for the buyer provided the seller is given substantiating documentation and evidence. The buyer agrees to have a necropsy performed at buyer's expense. Necropsy is to be performed by a licensed veterinary pathologist with appropriate tissue samples taken and evaluated, and a copy of the written report must be forwarded to the seller for review. All warranties are for replacement only, and not for refund of purchase price in whole or part, or any reimbursement of veterinary/medical expenses incurred by the buyer or any other expenses in whole or part. Due to the inherent variability of breeding and litters, a puppy may not be available immediately, and a reasonable amount of time, not to exceed one year, will be allowed for replacement. In the event no such puppy is available or seller is no longer breeding, a refund of half the purchase price will be given to the buyer. No guarantees apply to health related problems caused by nutrition or care, nor any accident or illness.

This guarantee does NOT cover the following which are common conditions for the bulldog breed and highly unpredictable: treatment for internal or external parasites or bacteria, cherry eye, loose hips, loose knees, skin allergies, elongated soft palates, and small or collapsed (stenotic) nostrils, bad or uneven bites, demodex, mange, inguinal or umbilical hernias, coccidia, kennel cough, giardia, or thyroid dysfunction.

As Bleu Rock French Bulldogs strives to produce the healthiest puppies possible and is always highly concerned about the subsequent health of all puppies produced and sold, please do contact the seller immediately for consultation if any of these conditions should occur throughout the life of your dog. This type of information is very important to our breeding program. Conditions such as cherry eye, for example, which can indeed look very bad are often easily treated and seller will be more than happy to advise about any surgical or medical treatment options throughout the lifetime of our dogs. We also enjoy hearing updates on how healthy and well our dogs are doing in their new homes. Any and all updates are always welcomed.

Buyer agrees to notify seller immediately should this puppy/dog become severely ill. Any, and all veterinarian records must be forwarded to the seller upon request. Buyer also agrees to notify seller immediately upon any such diagnoses being made and prior to any decision to euthanize or this guarantee is null and void.

As with any and all living things there unfortunately can be no guarantees of a future with no problems. The seller does NOT guarantee against any diseases that can be acquired after the puppy/dog has left seller's home/ possession.

Additional Provisions: All medical expenses from the date of sale forward is the responsibility of buyer. Buyer agrees and acknowledges that seller is in no way responsible for any expenses (medical or otherwise) from the date of sale forward.

Your puppy has received the vaccines listed in the health record, and vet letter and should continue to receive their series of puppy distemper vaccines if they are not yet completed.

An initial rabies vaccine should be given at any point between 4-6 months of age and then a boost of every 1-3 years as required by your state.
